OPERATIONS MANAGEMENT | RESOURCE ALLOCATION | LEADERSHIP & DEVELOPMENT

Active Secret Security Clearance

Engineering Operations Manager and Military Veteran with over 4 years of experience within the engineering and operations management sectors. Extensive knowledge in personnel management, logistics coordination, and process optimization. Accomplished measurable results while leading teams of up to 120 personnel in dynamic, fast-paced environments. Possess a comprehensive background in project management, resource allocation, and compliance. Proven expertise in safety protocols, equipment maintenance, and environmental initiatives. Managed risk across multiple operations to protect assets, property, and equipment valued at over \$40 million while consistently meeting the expectations of senior leadership.

AREAS OF EXPERTISE

- Project Management
- Logistics Coordination
- Personnel Management
- Maintenance & Operations
- Supply Chain Management
- Risk Management & Compliance
- Data Analysis & Reporting
- Environmental Compliance
- Process Optimization

EDUCATION

Cornell University, Ithaca, NY

Master of Professional Studies in Natural Resources and the Environment

GPA: TBD

December 2025 - Present

Saint Louis University, Saint Louis, MO

Bachelor of Science in Marketing

GPA: 3.63/4.0

Honors: Cum Laude

August 2016- May 2020

Military Training Courses, U.S. Army:

Environmental Compliance Officer Course

Sexual Assault and Sexual Harassment Victim Advocate Course

Basic Officer Leaders Course

Air Assault Course

2023

2022

2021

2019

PROFESSIONAL EXPERIENCE

Hawaii State Department of Agriculture, Oahu | Hawaii

Biosecurity Inspector

Worked within the Little Fire Ant (LFA) Response Team to assess and control the spread of an invasive fire ant, *Wasmannia auropunctata*, across Oahu through surveying, microscopic identification, pesticide treatment applications, and mapping their spread through GIS.

- Worked in a team of 5 biosecurity inspectors to facilitate invasive species control methods across the entire island.
- Successfully surveyed and performed response efforts to over 500 residences and 10 nurseries for the presence and density of little fire ants.
- Assisted in training 3 nursery owners on the proper pesticide application methods to control for LFA.

September 2025 - November 2025

Army Natural Resources Program, Oahu | Hawaii

Intern (November 2024 – February 2025)

Field Technician (March 2025 – July 2025)

Tasked with managing endangered and rare species affected by Army training on the island of Oahu through endangered species conservation and management, plant propagation, invasive species removal, and reforestation using native plants in remote locations.

November 2024 – July 2025

- Worked in a team of 8 natural resource professionals to complete quarterly goals and day-to-day tasks managing over 55,000 acres of land.
- Provided on-the-ground management for 90 endangered species, including plants, birds, tree snails and insects.
- Assisted in the out-planting of over 3,000 native Hawaiian plants within the Wai'anae and Ko'olau mountain ranges.
- Learned skills of natural resource management and conservation including identification of native Hawaiian and alien plants, field collection of rare plant seeds, various weeding techniques using a variety of herbicides, small vertebrate mitigation, fence repair, ungulate control methods, out-planting of native species in restoration areas, and data entry.

United States Army | Various Locations

July 2020 - March 2025

Engineering Operations Manager *(November 2022 – March 2025)*

Led operations, logistics, and administrative functions for a 9-person engineering team, coordinating personnel, resources, and compliance efforts to improve project timelines by 15% and ensure the successful execution of engineering projects.

- Streamlined administrative processes by organizing and compiling monthly performance reports, reducing errors by 20% and improving overall reporting accuracy.
- Supervised project operations, ensuring smooth collaboration between team leaders and external contractors for successful project execution.
- Implemented effective supply chain management processes, ensuring all equipment and materials maintained 100% operational readiness.

Operations Manager *(March 2022 – November 2022)*

Managed administration, logistics, training, and daily operations for a 120-person team; oversaw equipment maintenance for assets valued over \$11 million, leading process improvements to enhance team efficiency and compliance with safety standards.

- Enhanced team productivity by 20% through effective management of daily operations, including logistics, training, and administrative functions.
- Revamped the vehicle maintenance program, improving fleet readiness by 40% and reducing downtime through collaboration with technical experts.
- Implemented comprehensive safety protocols, resulting in a 30% reduction in safety incidents and ensuring all equipment met operational readiness.
- Achieved a 96% qualification rate during weapons training by optimizing training schedules and enhancing team preparedness for operational requirements.
- Led environmental compliance initiatives, reducing non-compliance incidents by 25% and fostering a safety culture across all departments.

Operations Supervisor *(April 2021 – March 2022)*

Managed the training, development, and operational readiness of 64 personnel, overseeing the maintenance and operation of 40 vehicles and \$40 million in equipment, ensuring compliance with safety standards and the successful execution of critical projects.

- Increased team efficiency by 20% through adequate supervision of training and professional development initiatives.
- Achieved 100% operational readiness of vehicles by optimizing maintenance procedures and operational protocols.
- Implemented innovative virtual training programs during pandemic restrictions, delivering over 20 sessions that ensured continuous team development.
- Coordinated logistics and safety measures for a 1,260-kilometer transportation operation, resulting in zero safety incidents and timely project completion.
- Reduced workplace incidents by 25% by implementing improved safety protocols and ensuring compliance with organizational safety standards.

NOTABLE AWARDS

Army Commendation Medal (2nd Award), United States Army
Army Achievement Medal United States Army

2021, 2025
2024

VOLUNTEER EXPERIENCE

Department of Land and Natural Resources

2021-2025

Volunteered under DLNR's Native Ecosystems Protection and Management Program

- Volunteered for multiple volunteer day events removing invasive species of plants and planting native Hawaiian plants throughout state lands.

808 Cleanups | Hawaii

2021-2024

Participated in multiple beach cleanups, restoration projects, and cultural site preservations across the island of Oahu.

- Cleared over 21,000 sq feet of invasive plant species at Kaloko Inlet, a coastal habitat for Hawaii's endangered native yellow-faced bee *Nalo meli maoli* or *Hylaens*.
- Removed over 400 lbs of debris and trash from Hawaii's coastlines ensuring the health and safety of Hawaii's residents and aquatic life

Kokua Hawaii Foundation

2021-2024

raise awareness about environmental issues and sustainable practices

- Participated in multiple Learning Farm workdays helping to manage 7 acres of land with a variety of different eco-zones and purposes such as an agroforestry orchard, agriculture food production rows, native wetlands area, and native gardens
- Fostered a deeper understanding of sustainable farming practices through hand-on environmental stewardship

TECHNICAL SKILLS

Software: Microsoft Office Suite 365 (Word, Excel, PowerPoint, Outlook, Teams) | SharePoint | ArcGIS | Adobe

Google Workspace: Gmail | Calendar | Contacts | Meet & Chat

Google Drive: Docs | Sheets | Slides

Devices: Mac | Microsoft Windows | iOS | Android
